

Introducing the AMAC Ambassador Leadership Program

I'm **Bev Kilmer**, the new Director of Public Affairs and Ambassador Coordinator for AMAC and I am excited to introduce our newly established *Ambassador Leadership Program*. Our phones are ringing non-stop by people just like you who want to know what they can do to spread the word about AMAC. If you feel strongly that our freedom is being threatened, that government is getting out of control and that our very way of life is under attack, then we want you in our "Ambassador Leadership Program". This is a VOLUNTEER leadership

program that allows you to reach out to your "like minded" friends, families, clubs, groups, and colleagues to build a local sphere of influence within AMAC to literally change the direction this country is headed.

As an Ambassador, AMAC will provide you with a kit full of the supportive tools to help you build membership and promote the issues we feel are so very important in protecting all the rights given to us by the Constitution.

Roles of an Ambassador:

- Develop a sphere of influence by introducing AMAC to prospective members, help them enroll and help establish a local chapter. Membership, including spouse, is only \$15 for 1 year, \$28 for 2 years or \$39.50 for 3 years.
- Share with AMAC any issues that could adversely affect our members so that we can act quickly to protect members from those who would do them harm.
- Remain knowledgeable on all the current issues affecting 50+ citizens and share this information in a timely manner
- Assist AMAC in achieving goals such as getting our petition to require a 10% cut in government spending. The petition can be found on our website at www.amac.us. Please sign it and encourage others to do the same. *This is very important!*
- Help identify benefits that you feel are most needed and important to 50+ citizens. We are constantly adding new benefits and want to provide the most significant discounts and benefits possible.

If you are interested in our Ambassador program or becoming a member of AMAC, go to www.amac.us; or call 850-509-5486. *We are the true conservative alternative to AARP and we are "All about You!"*

I look forward to working with you,
Bev Kilmer

AMAC Stance on Key Issues:

Taxes – Push for reduction of income taxes

Government Growth – Government is best run on the local level and accountable *to the people*. We strongly support less government, less taxes and more personal responsibility

Balanced Budget – We are against our children and their children being shackled with past generation debt

Medical Care – The government cannot successfully run the programs they have now and we cannot afford to put our health in their hands. Local state's can make regulatory changes to provide needed healthcare reform without Washington taking it over

Abortion – AMAC is Pro-Life and believes strongly that other than saving the mother's life, government should not provide any funding for abortions

Marriage – AMAC believes that marriage should be between one man and one woman

Second Amendment Rights – Exercising the right to keep and bear arms demands the utmost responsibility and we believe the Second Amendment guarantees our inalienable right to keep and bear arms

The Constitution of the United States – We believe in the Constitution of the United States and the sanctity of the values it was based upon.

is all about you!

For years you have worked, raised your family and paid into Social Security. You have protected and looked out for your family. Who do you think is protecting and looking out for you now?

It's AMAC! The Association of Mature American Citizens.

You can no longer count on AARP to put you first. They have sold out to OBAMACARE, giving away your rights to the health care benefits you paid into for over 50 years of your life. They have endorsed programs to cut your Medicare yet give free health care to illegals at your expense and that of your children. These grandparents have raised their families and now are hoping to focus on their grandchildren and reap the benefits of years of working hard, paying taxes and doing the right things. They should not have to worry each day about healthcare, taxes and especially wasteful spending by the government that will plague generations to come.

AMAC Speaking for You; Working for You

Above all else, AMAC's mission is to see that affordable and meaningful healthcare remains available for everyone, that taxes are not wasted on even more government run programs, and finally, that government stays out of our personal lives.
